EDUCATION

2020 - Present

PONTIFICAL CATHOLIC
UNIVERSITY OF PARANÁ

- Computer Engineering.

10/2024 - Present

TECHNISCHE HOCHSCHULE
INGOLSTADT EXCHANGE

- Computer Science and AI.

SOFT SKILLS

- Proactive Learning
- Effective Communication
- Teamwork
- Problem-Solving
- Adaptability
- Critical Thinking
- Proactive Learning
- Accountability

LANGUAGES

- English (Fluent)
- Portuguese (Fluent)
- German (Beginner)
- Spanish (Intermediate)

PROFILE

Computer Engineering student with hands-on experience in programming, workflow optimization, and IT infrastructure. Skilled in tools like Python, Java, Full-stack development, source control and SQL, with a strong foundation in Linux and robotics. Currently enrolled at an exchange program at Technische Hochschule Ingolstadt at the Computer Science and AI course.

WORK EXPERIENCE

Intern at Exati Tecnologias

2022 - 2023

On this internship, I had the opportunity to work in a dynamic and collaborative environment, focused on programming, where I was able to improve and apply my knowledge in various technologies.

My responsibilities included:

- Development and maintenance of web applications with Vue.js.
- Integration of frontend applications with backend services with Java and NodeJS.
- Creation and management of databases with PostgreSQL.
- Use of Git and GitLab as source control.
- Task management and tracking of bugs and tasks with Youtrack.

Intern at Siemens Energy Brasil

2021- 2022

This internship at Siemens provided me with a deep understanding of IT operations in a large corporation, allowing me to develop technical and problem management skills in a high-demand environment.

My responsibilities included:

- Infrastructure management.
- Remote support.
- Virtualization.
- Call and ticket management.

OTHER EXPERIENCES

- Member of the PUCPR Mobile Robotics Team, contributing to the development of follow-line, sumo, trekking, and combat robots. Participated in competitions like RoboCore Experience (RCX) and IRONCup, where I honed my technical, problem-solving, and teamwork skills under pressure.
- Scholarship Program for Initiation in Technological Development and Innovation 2021, focusing on research innovation related to digital twins and their applications in aerospace projects in partnership with Airbus.

HARD SKILLS

- MS Office
- Linux
- Python
- Java
- JavaScript
- ReactJS
- VueJS
- HTML e CSS
- PHP
- SQL
- C/C++
- Git and source control
